TIMOTHY P. CALLAHAN
SUPERVISORY PATENT EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant has amended claims to incorporate allowable feature indicated in the previous Office Action. Specifically, none of the prior art teaches or fairly suggests, among other things, the limitation "the counter is coupled to receive a first count value and a second count value to set an asymmetrical duty cycle; and a controller coupled to receive an output of the counter to generate a low frequency clock with an asymmetrical duty cycle" as required by claim 11; and the limitation "a controller to generate a second clock signal at the first frequency with a second duty cycle formed by a first transition and a second transition, the second transition initiated when a value of the counter is at a predetermined value" as required by claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
